AFL2-17A-H61/AFL2-W19A-H61

ICP Electronics Australia Announces the Release of IEI Technology's 17" & 19" Wide Screen Panel PCs

Both models feature 2nd Gen Intel® Core™ i7/i5/i3 processor technology and the Intel® H61 Express Chipset. Designed for scalability and cost optimization, these new AFOLUX GEN II models with Intel® H61 Express Chipset and 2nd generation Intel® Core™ processor allows one DIMM per channel of DDR3 1333MHz.

The new AFOLUX GEN II series, AFL2-17A-H61 and AFL2-W19A-H61, includes more advanced features such as the integrated EM/Mifare RFID reader, 9~36V DC wide voltage input, LED dash system for eye-catching notification, and light fanless temperature management.

ICP Australia is on Facebook!

If you have been receiving our eNewsletters regularly, you may have noticed that there have been a few changes. Not only is there a fancy new design, but we have a few more points of contact.

Facebook has become a widely engaging tool for businesses to interact with their customers. According to a recent statistic, 33% of the world's population are using facebook. It is easily accessible, and interactions can be in real-time.

We hope that you 'like' our upgrades, and can visit us on our Facebook page soon.
